

XIAOYU FAN

(+86) 18991286329 | xiaoyuf30@gmail.com | fanxyjumping.github.io

1037 Luoyu Road, Guanshan Subdistrict, Hongshan District, Wuhan, 430074

RESEARCH INTERESTS

- Multi-Agent Systems
- Representation Learning
- Causal World Model

EDUCATION

- **Huazhong University of Science and Technology** Sep. 2024 - Jul. 2028
Major: *Intelligent Medical Engineering*
◦ B.Eng., Rank: 3/11 Wuhan, China

PUBLICATIONS & PREPRINTS

- Ruibiao Fu, Di Tang, Yunlong Yang, Ran Wang, Sicheng Lu, Peixuan Wu, **Xiaoyu Fan**, Jiacheng Ma, HaoZhe Luo, Yang Xiao. *CWF: A Collaborative Writing Framework for Personalized and Reliable Popular Science Writing*, EMNLP 2026 Findings

SELECTED PROJECTS

- **Omission-based Deception Fake News Detection Dataset** Apr. 2026
 - Constructed a benchmark dataset of approximately 4,000 samples for detecting omission-based deception in LLMs, with hierarchical labels and six fine-grained categories.
 - Implemented data generation scripts and evaluation workflows supporting SFT and prompting-based approaches.
- **Image Segmentation and Region Coloring System** Apr. 2026
Instructor: Prof. Shoudong Han, HUST;
 - Developed an end-to-end C++ / OpenCV image processing system for seed generation, watershed segmentation, region adjacency graph construction, and graph coloring.
 - Achieved millisecond-level runtime on 600 x 600 images with about 1,000 seeds.

EXPERIENCES

- **Shanghai Jiao Tong University** Summer 2026
VISITING INTERN AT *DEEPDELTA LAB*, ADVISED BY *PROF. SHAOBO CUI*
Research Topics: causal world model, counterfactual data, cross-modal alignment
- **Huazhong University of Science and Technology** Nov. 2025 - Present
RESEARCH INTERN AT *DEEPPKW*, ADVISED BY *PROF. RAN WANG*
Research Topics: multi-agent systems, post-training

SERVICE

- **Reviewer:** AAAI 2026; EMNLP 2026; IJCAI 2026

HONORS AND AWARDS

- **Meritorious Winner in the 2026 Mathematical Contest in Modeling** 2026
- **Self-Reliance and Endeavour Scholarship** 2025

PROFESSIONAL SKILLS

Programming: C++, Python, MATLAB, Java, LaTeX, Markdown, SQL

Frameworks: Git, OpenCV, Transformer, PyTorch, NumPy, Conda, SFT, MuJoCo

Systems: Linux, MacOS, Windows
